

Instructions for Mathematical Symbols

This PDF is laid out as a grid. The grid lines should be used as a guide when cutting.

Separate each symbol.

Each page should be printed on White Paper or White Card.

Make sure each symbol card is exactly the same size and laminate them.

Plus, Minus and Equals symbols are taught using a 3 period lesson.

After the initial presentation children can fill a blank page with their chosen symbol.

The card symbols can also be used when constructing simple mathematic problems for the child to solve

All downloads are for your personal use and can be used within your setting but cannot be sold or uploaded to your own website or social media page.
