

Montessori for Aging and Dementia Two-Day Workshop in Ireland

26th and 27th March 2018

Saint Nicholas Montessori College Ireland (SNMCI) and Association of AMI Teachers of Ireland (AATI) are delighted to announce a two-day workshop on Montessori for Aging and Dementia.

For the first time in Ireland, this innovative approach to dementia care for the elderly will be explored. The workshop is led by Jennifer Brush, who is an award-winning Dementia Educator, author and consultant and will be delivered in Saint Nicholas Montessori College Ireland's premises in Dún Laoghaire.

The goal of the Montessori program is to support people living with dementia by creating a prepared environment, filled with cues and memory supports, that enables individuals to care for themselves, others, and their community. This two-day program focuses on the Montessori for Aging and Dementia program criteria as established by the Association Montessori International. Participants will receive handouts, a copy of the book *I Care: A Handbook for Care Partners of People with Dementia* and a certificate of completion.

The Montessori approach enhances quality of life for people living with dementia by creating an environment in which they can succeed. Roles, routines and activities are developed for each individual, which are meaningful to that person – giving each person the opportunity to enjoy an enriched life. Individuals living in a Montessori community do as much for themselves and others as possible, rather than having things done to them or for them.

Attend this two-day workshop and learn to create meaningful activities and roles by:

- Focusing on the person, not the dementia.
- Matching strengths and abilities with personal history.
- Fostering social connections and friendships.
- Developing routines that build confidence and self-esteem
- Providing cues, prompts, materials and templates to support the person's memory loss.

Jennifer Brush, MA, CCC/SLP is an award-winning Dementia Educator, author and consultant. With her 25 years of industry experience, including leading countless live national and international trainings, facilitating ground-breaking research, and managing innovative person-centered care projects for The Mayer-Rothschild Foundation, Jennifer flawlessly bridges the gap between care communities and the individuals they serve. Jennifer serves on the Association Montessori International Advisory Board for Montessori for Aging and Dementia and is the only person in the US teaching this international program. Jennifer is the author of 5 nationally recognized books on dementia including the silver-medal winning *Creative Connections in Dementia Care* and *I Care*, the gold-medal winning work that also received a 5-star rating as a Reader Favorite. Jennifer is widely known for her revolutionary work in the Spaced Retrieval memory intervention, pioneering this area of study and publishing 2 books on the subject.

Saint Nicholas Montessori College Ireland, 16 Adelaide Street, Dún Laoghaire, Co. Dublin, A96 H5P3
Register your interest with Erica Roche (Erica.roche@snmci.ie) Tel: 353 (1) 280 6064

The cost of the two-day workshop is €175 per participant (if paid before 12th January 2018) or €199 thereafter.

Montessori for Aging and Dementia

Workshop Agenda

Location: Saint Nicholas Montessori College Ireland, 16 Adelaide Street, Dún Laoghaire, Co. Dublin, A96 H5P3

26th March 2018
